Fire Chief's Report for June

We ran 18 calls for the month of May. 4 BLS, 4 ALS, 3 MVC, 3 Wildland, 2 Cancelled Calls, 1 Smoke Investigation and 1 Public Assist.

I contacted Valley Telecom and had the number we are no longer using disconnected. The phone number that starts with (100) is our internet line. If we have it disconnected, it will shut off our internet.

I successfully submitted a grant to the Arizona Community Foundation in the amount of \$4,977.45, to purchase hose and a nozzle for Tanker 2501.

Our IV fluids were going to expire in September and October of this year. HCI exchanged our IV fluids with ones that expire in 18 months. Their operations manager told me that we can exchange our soon to expire IV fluids with them so we don't have to throw any away.

I met with County Emergency Manager Danny Duchon at the station. He stated that Cochise County may be willing to be our grant administrator, if needed. He also issued a multi gas tester to the fire district.

I spoke with Core Construction about the new station. They are assisting me with getting an estimate for architecture fees.

The vehicles are listed on publicsurplus.com

The pump on the brush truck needs to be rebuilt as the input drive shaft splines are worn and the pump will not function. I am waiting on a quote from Brian for the pump repair.

I've had to submit the WEX Card application yet again. The commercial accounts manager is personally handling our application.

I submitted Fernie and my AFDA application for the statutory training again.

Respectfully,

Chief Novak
